

K-Love is the only radio station I listen to, all of my radios are set to it, it is my constant reminder of the walk w/the Lord. I have turned many people on to 91.1, including people in other areas. I hear Mothers of young children, fathers and grandparents who call in with the positive influence this station has on our children young and teens.

I am listening to it when my grandchildren visit and they sing along with the music. You would be taking a very positive program away from our community and our young children.

Secular radio stations have negative music and news whereas K-Love even presents the news in a positive way. This would be just one more step to remove the Lord from our community, lives and our country.

My feeling is we need to leave the programming alone. We do not need to implement LPFM where it is going to affect listener paid for K-Love stations through out the United States and elsewhere.
